Five StarsBy Art LeeThis is a great book for window treatments. Covers all of the major types of treatments with clear instructions.2 of 2 people found the following review helpful. lots of variety to choose fromBy Sherryl TuxburyI'm making my first foray into curtain making and found this book at the local library. Of all the curtain and drapery books I looked at, this was the book I went and purchased.... I'm not sure how the author(s) managed to show 45 styles and give enough instructions for you

to make each one inside one book, but they did it. I am glad that I do have sewing experience though, while the book gives you enough instruction for creating each of the styles shown on your own, the directions do assume you have some basic sewing knowledge. A good find!

Step-by-step directions for forty-five styles of window treatments.
