**Katsuo Saito; English Translation Shinjiro Hiki : Designing Japanese Gardens** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Designing Japanese Gardens:

Designing Japanese Gardens was written by Katsuo Saito translated to English by Shinjiro Hiki. The text is in both Japanese and English published by GIHODO Co., Tokyo. No date of publication anywhere no dust jacket but there is an almost like-new slipcase. The book has three sections: Philosophy of Gardening, 50 pages; How To Design Gardens, 198 pages; and Objects and Materials, 31 pages. It measures 8 " X 12" X 1". There are a prior owner business card as a Landscape Gardner glued to the bottom of the front outside cover and his bookplate with name on the bottom of the inside front cover, otherwise this oversized hardcover is like-new, richly and copiously illustrated by black-and-white photos and drawings.
